Education

University of Wisconsin-Madison

Major: Data Science, Information Science; Certificate: Math, Computer Science Expected Graduation: May 2027

Experience

- Jun 2026 - Present
N + 1 Institute, College of Computing & AI (CAI), University of Wisconsin-Madison
Summer of AI Lab (SAIL) Undergraduate Research Intern
 - Building an AI-based Financial Analyst System that predicts company income based on annual data using **Python, FastAPI, React, Gemini model, and RavenDB**. We deploy the application using **Docker and Cloud Run**
- Jun 2026 - Present
International Sibling Society
Data Analytics & Research Intern
 - Collect, analyze, and visualize data to track key performance indicators (KPIs) and generate insights in the form of visualizations and regression analysis that inform strategic decision-making, using **Power BI & Python**
- Aug 2025 - Present
HR Department, Facilities Planning & Management Division, UW-Madison, Madison, WI
Student Assistant
 - Managing front desk Inquiries, filing paper documents and using perceptive content & Organizing Files

Projects

- 2026
Spatial Intelligence Ideathon
 - **Won second place** pitching a smart glass for safety VR-related idea using **ZaiNar tracking** technology and **Spatially Grounded AI for Augmented Reality (SGA-AR)**.
- 2026
Synchronized Applications Recommender Knowledgebases, Codex Creator Challenge
 - Recognized as **one of the top projects**. Developed an application to address the problem of people not knowing what they want for the Handshake x OpenAI Codex Creator Challenge, using **Python, FastAPI, React, Node.js, MongoDB, and gpt-4o-mini**.
- 2025 - 2026
Full-Stack Engineering, Applied AI
 - Personal AI Chatbot Agent using **LangChain, React** framework for the Single Page Application (SPA), **Node.js, Express.js, MongoDB** for storing data, **FastAPI**, and **GPT 4.0** for the LLM.
 - Personal AI Agent to brief my morning with motivation and a list of tasks using the **weather API, Google API** to access calendar, **GPT 4.1, and MCP**.

Skills

Programming Language: Python, JavaScript, TypeScript, HTML, CSS, Java, R, PostgreSQL

Developer Tools: VSCode, RStudio, GitHub, Figma, JupyterLab, Eclipse, Excel, LM Studio, Power BI, VIM, Docker

Libraries: matplotlib, numPy, pandas, tidyverse, scales, Scikit-learn, Seaborn, Pytorch, JavaFX, BeautifulSoup, requests

Frameworks & Others: express.js, node.js, FastAPI, React, MongoDB, Langchain, MCP, Shiny

Extracurriculars

- 2025 - Present
Wisconsin AI Safety Initiative (WAISI) Leadership in Technical Team
 - Build and update the AI Technical Safety Fundamentals (AISF) curriculum, and lead AISF cohorts
 - Participate in Safety Scholars and help with behind the scenes execution
