Education

University of Wisconsin-Madison

Expected Graduation: May 2027

Major: Data Science, Information Science

Certificate: Math, Computer Science, Ethics of Data and Artificial Intelligence

Experience

N + 1 Institute, College of Computing & AI (CAI), University of Wisconsin-Madison

June - August 2026

Summer of AI Lab (SAIL) Undergraduate Research Intern

- Building a **GraphRAG, AI-based** Financial Analyst that describes company information based on annual data using **Python, FastAPI, React, Node.js, the Gemini model, and RavenDB**. We deploy the application using **Docker and GCP**.
- Responsible for creating building the data extraction layer using python, the Node.js authentication layer, and initiating the Dockerfile.

International Sibling Society

June - August 2026

Data Analytics & Research Intern

- Collect, analyze, and visualize data to track key performance indicators (KPIs) and generate insights in the form of visualizations and regression analysis that inform strategic decision-making, using **Power BI** and **Python**
- Utilized Power BI to transform and visualize data for SDG 7.1.1, 7.1.2, and 3.9.1.
- Built visualizations using Python and Claude AI to analyze SDG 9.5.1, 9.5.2, and 11.6.2

HR Department, Facilities Planning & Management Division, University of Wisconsin-Madison

Aug 2025 - Present

Student Assistant

- Managing front desk inquiries, filing documents, organizing files, and assisting with employee training website.

Projects

Senior Capstone Project

September 2026 - Present

- Currently working with the **UW-Madison BUILD Lab on "Nudgi,"** an AI-test product, with users, collecting feedback and behavioral data, and translating findings into actionable design and implementation recommendations using the **Agile** Framework. Tech stack: **Figma, Jira, React, Python, JavaScript, FastAPI, HTML/CSS, SQL, an LLM, and GitHub**.
- Responsible for conducting User Experience (UX) research and collaborating with a PhD project mentor in Figma.

Spatial Intelligence Ideathon

August 2026

- Won second place** pitching a smart glass for safety VR-related idea using **ZaiNar tracking** technology and **Spatially Grounded AI for Augmented Reality (SGA-AR)**.

Synchronized Applications Recommender Knowledgebases, Codex Creator Challenge

April 2026

- Recognized as **one of the top projects** for developing a platform to address the problem of people not knowing what they want for the Handshake x OpenAI Codex Creator Challenge.
- Utilized the OpenAI Codex platform to build the application using **Python, FastAPI, React, Node.js, MongoDB, and GPT-4o-mini**.

Skills

Programming Language: Python, Java, JavaScript, TypeScript, HTML, CSS, C, R, PostgreSQL

Developer Tools: VSCode, RStudio, GitHub, Figma, Jira, Excel, Power BI, VIM, Docker, Claude Code, Codex

Libraries: matplotlib, NumPy, pandas, tidyverse, scales, Scikit-learn, Seaborn, Pytorch, JavaFX, BeautifulSoup, requests

Frameworks & Others: Scrum, Kanban, JUnit, Node.js, FastAPI, React, MongoDB, LangChain, MCP, Shiny

Extracurriculars

Wisconsin AI Safety Initiative (WAISI) | Leadership in Technical Team

August 2025 - Present

Wisconsin Deliberation Dinners Project | Participant

September 2024 - April 2025

Indonesian Student Association (PERMIAS) at Madison | Secretary

September 2023 - May 2024
