Education

University of Wisconsin-Madison

Major: Data Science, Information Science

Expected Graduation: May 2027

Certificate: Math, Computer Science, Ethics of Data and Artificial Intelligence

Experience

- Jun - August 2026
N + 1 Institute, College of Computing & AI (CAI), University of Wisconsin-Madison
Summer of AI Lab (SAIL) Undergraduate Research Intern
 - Building an **GraphRAG, AI-based** Financial Analyst that describes company information based on annual data using **Python, FastAPI, React, Gemini model, and RavenDB**. We deploy the application using **Docker and GCP**
- Jun - August 2026
International Sibling Society
Data Analytics & Research Intern
 - Collect, analyze, and visualize data to track key performance indicators (KPIs) and generate insights in the form of visualizations and regression analysis that inform strategic decision-making, using **Power BI and Python**
- Aug 2025 - Present
HR Department, Facilities Planning & Management Division, UW-Madison, Madison, WI
Student Assistant
 - Managing front desk inquiries, filing documents, organizing files, and assisting with employee training programs

Projects

- 2026
Spatial Intelligence Ideathon
 - **Won second place** pitching a smart glass for safety VR-related idea using **ZaiNar tracking** technology and **Spatially Grounded AI for Augmented Reality (SGA-AR)**.
- 2026
Synchronized Applications Recommender Knowledgebases, Codex Creator Challenge
 - Recognized as **one of the top projects** by developing a platform to address the problem of people not knowing what they want for the Handshake x OpenAI Codex Creator Challenge, using **Python, FastAPI, React, Node.js, MongoDB, and gpt-4o-mini**.
- 2026
Room Reservation Website Redesign
 - Redesigned the current school room reservation website as a course project to have a better UI/UX and be applicable on mobile. We redesigned the current system using **Figma**.

Skills

Programming Language: Python, Java, JavaScript, TypeScript, HTML, CSS, C, R, PostgreSQL

Developer Tools: VSCode, RStudio, GitHub, Figma, JupyterLab, Eclipse, Excel, LM Studio, Power BI, VIM, Docker

Libraries: matplotlib, NumPy, pandas, tidyverse, scales, Scikit-learn, Seaborn, Pytorch, JavaFX, BeautifulSoup, requests

Frameworks & Others: JUnit, Node.js, FastAPI, React, MongoDB, LangChain, MCP, Shiny, Claude Code, Codex

Extracurriculars

- 2025 - Present
Wisconsin AI Safety Initiative (WASIS) Leadership in Technical Team
 - Build and update the AI Technical Safety Fundamentals (AISF) curriculum, and lead AISF cohorts
 - Participate in Safety Scholars and help with behind the scenes execution
