Education

University of Wisconsin-Madison

Major: Data Science, Information Science; Certificate: Math, Computer Science Expected Graduation: May 2027

Related Classes: Linear Optimization, Intro to AI, Interaction Design Studio, Securing Information Networks, Data Storytelling with Visualization

Experience

○ 2026

International Sibling Society

Data Analyst Intern

- collect, analyze, and visualize data to track key performance indicators (KPIs), evaluate user engagement, and generate insights that inform strategic decision-making. Use tools like Power-BI & SQL

○ 2025 - Present

HR Department, Facilities Planning & Management Division, UW-Madison, Madison, WI

Student Assistant

- Managing front desk Inquiries, filing paper documents and using perceptive content & Organizing Files
- Assisting recruitment process in the background

○ 2024

PT Kereta Cepat Indonesia-China (KCIC) | Halim, Indonesia

IT Intern

- Reviewed API system performance test results to ensure successful integration into 3rd-party websites.
- Discussing problems related to UI/UX design and app functionality

Projects

○ 2026

HackerRank Orchestrate 24 hours Hackaton

- Developed a terminal-based CLI that enables people to ask questions about Visa, Claude, and HackerRank to AI. Using Python and Claude API, and TF-IDF matrix (term frequency-inverse document frequency).

○ 2026

Synchronized Applications Recommender Knowledgebases, Codex Creator Challenge

- Developed an application intended to address the problem when people don't know what they want for the Handshake x OpenAI Codex Creator Challenge using Python, FastAPI, React, Node.js, MongoDB, and gpt-4o-mini.

○ 2025 - 2026

Full-Stack Engineering, Applied AI

- Personal AI Chatbot Agent using Langchain, React framework for the Single Page Application (SPA), node.js, Express.js, MongoDB for storing data, and FastAPI, Langchain, and OpenAI for the LLM implementation.
- Personal AI Agent to brief my morning with motivation and list of tasks using weather API, google calendar, OpenAI API, and Model Context Protocol (MCP) framework.

Skills

Programming Language: Python, JavaScript, Typescript, R, HTML, CSS, Java, C, C++, PostgreSQL

Developer Tools: AWS, Vim, VS Code, RStudio, GitHub, Figma, JupyterLab, Eclipse, Excel, LM Studio

Libraries: matplotlib, numPy, sciPy, pandas, tidyverse, dplyr, scales, Scikit-learn, Seaborn, Pytorch, JavaFX

Frameworks: express.js, node.js, FastAPI, React, JUnit, MongoDB, Langchain, MCP, Shiny

Extracurriculars

○ 2025 - Present

Wisconsin AI Safety Initiative (WAISI) Leadership in Technical Team

- Build and update the AI Technical Safety Fundamentals (AISF) curriculum, and lead AISF cohorts
- Participate in Safety Scholars and help with behind the scenes execution
